

This architectural drawing depicts a long, narrow building facade. The structure is characterized by a series of vertical elements, likely columns or window frames, which divide the facade into several bays. Each bay contains a window with multiple panes. On the right side of the drawing, there is a small, square entrance or window. The drawing is rendered in a simple, line-art style, with a light blue background and dark blue outlines. The overall impression is that of a technical sketch or a conceptual drawing for a building design.

This architectural drawing shows a side elevation of a building. It features a long, narrow facade with a series of windows. On the left, there is a vertical strip of windows. In the center, there is a larger, multi-paned window. To the right of this central window, there is a smaller, single-paned window. The drawing is rendered in a simple, sketchy style with light lines and some shading.
