

The floor plan shows a long building with a central corridor system. The plan is divided into several sections, each with a grid line (A through G). The rooms are labeled with their floor level (1. OG or EG) and room number (e.g., 01-WZ-4.4, 00-WZ-4.4). The plan includes dimensions for room sizes, wall thicknesses, and door widths. Elevation markers are present throughout the drawing, indicating the height of various elements. The plan also shows structural details like walls, doors, and windows. A legend at the bottom indicates the thickness of the insulation (12cm) and the type of insulation (Dämmung).
