Service

Consultant team with expertise in evaluation of interventions with gender- and human rights-related goals for a country case study in Mexico.

As part of the evaluation, a case study will be conducted in Mexico, provisionally scheduled during the period from September to October 2026. The field phase is an important step in the evaluation process: it serves to involve stakeholders in the partner country and collect data on site. To support this, a local consultant team will be hired to assist with the content and organisational preparation, the collection of data on site, the evaluation of data and the follow-up to the case study. The service provision shall be from 01.07.2026 until 31.03.2028. Please see the attached Terms of Reference for more details.

6 Evaluation of tenders

Criteria for the evaluation of the main and, if applicable, variant tenders

- ☐ Award criterion price
 The price shall be determined from the scores of the tender.
 The scores shall be determined from the recalculated tender amounts, in particular taking into account deductions.
☒ Several criteria in accordance with award criteria form

Consideration of workshops for persons with disabilities and inclusive businesses

If the tender of a recognised workshop for disabled persons or a recognised workshop for the blind or comparable institutions (hereinafter referred to as 'preferred tenderers') offers the same value for money as the otherwise best value tender of a non-preferred tenderer, the contract shall be awarded to the preferred tenderer. In assessing the value for money of the tender, the price offered by the preferred tenderers shall be considered with a deduction of 15 per cent. The precondition for including the deduction is that the production of the supplies offered is carried out to a significant extent by the preferred tenderers. This shall be the case particularly if the value added by their employees amounts to more than 10% of the net value of the purchased goods.

7 Admissible submission of tenders

- ☒ electronically in text form
☒ electronically with advanced signature/seal
☒ electronically with qualified signature/seal
☐ in writing

In the case of **electronic submission of tenders** in text form, the tenderer must be identifiable; if specified, the tender must include the required signature/seal.
The tender together with the attachments must be submitted to the contracting authority via the e-procurement platform by the end of the tender submission period.

If the **tender is submitted in writing**, the enclosed Letter of Tender must be signed and sent together with the enclosures in a sealed envelope to the following address by the end of the tender submission period or handed in there:

- ☐ See letterhead
☐ Address

9 Further information

Miscellaneous

1. For price calculation, the calculation sheet must be completed in addition to the file "Leistungsverzeichnis" (= price sheet). This is necessary so that you can calculate your travel, accommodation & daily allowance and transcription costs based on our specifications and we can verify your calculation.
2. The total amount in the Leistungsverzeichnis" (= price sheet) does not reflect the total order volume but is used for comparison purposes.
3. The evaluation of the price shall be based exclusively on the entries in the document "Leistungsverzeichnis.xlsx" submitted with the tender; any additional information to be provided directly in the tool provided by the awarding platform shall not be taken into account.
