

## Reference List

### **High-Resolution Recording and Reproduction of Decorated Tomb Walls in Qubbet el-Hawa North, Aswan, Egypt**

The tender must include at least two company references from the last three years that are comparable in nature and scope to the services being procured under this tender. A reference shall be deemed to have been performed within the last three years if the services have either been continuously provided by the contractor for at least six months from the date of contract award or have already been completed. The relevant date for calculating the three-year period is the tender submission deadline of this procurement procedure.

#### **Minimum Requirements for References**

The references provided must meet the following minimum requirements:

- High-resolution digitization and reproduction projects

The Contracting Authority reserves the right to verify the references with the respective reference providers.

In the case of a consortium (joint bid), it is sufficient for the reference information to be provided once on behalf of the consortium by the authorized representative member.

Services performed for clients that are affiliated with the tenderer or with one or more members of the consortium through corporate structures (e.g. within the same group of companies) or through other economic relationships may not be submitted as references. In case of uncertainty, the Central Procurement Office should be contacted in advance through a bidder question.

Please use the attached German Reference List template.
